では、始めます。

Hello, everyone. I'll talk about my experience of studying Japanese. When I was a university student, I began to study Japanese because I was interested in Japanese culture. At first, it was very difficult for me to understand Japanese.

At university, I made a Japanese friend. When I came to Japan three years ago, I stayed at my friend's house in Saitama for two months. His family only spoke Japanese, so I had to use Japanese every day. I also read Japanese newspapers with a dictionary. After about one month, I could talk with Japanese people in Japanese and understand more. I learned that it is important for me to use the language that I'm studying.

You are studying English at our school. English may be difficult, but don't be afraid of using it! Please speak to me in English. You are studying English and I am studying Japanese, so let's use English and Japanese together!

Now I understand Japanese better than before because I keep studying and using Japanese. I want to teach Japanese in the future when I go back to my country. How do you want to use English in the future?

Question 1 : When did Mr. Johnson stay at his Japanese friend's house in Saitama?

Question 2 : What is important for Mr. Johnson when he studies a foreign language?

Question 3 : What does Mr. Johnson want to do in the future?

(英文と質問を繰り返します。)
